Dear Dr. Ioan Valentin Petrescu-Mag
Chief Editor of the AACL Bioflux

Hope, This mail does not disturb your busy activities.

In this moment, we are sending our manuscript entitle A Study on bycatch and discard of filter nets (gombang) during west and north season in Bengkalis waters, Indonesia and the submission letter in attachment file with this mail.

We expect that our text is sufficient and feasible, so that it can be published on AACL Bioflux

Thank you very much for your attention and cooperation.

Best regards

Dr. NOFRIZAL

Date: Tuesday, February 4, 2020, 12:10 PM PST

Dear Dr. Nofrizal,

The paper has passed the preliminary evaluation and will be sent to reviewers as soon you pay the processing fee of 300 USD + bank taxes. For that, use only one of the variants below and then send me a scan copy of the bank document.

Prior than that, kindly reedit the paper. There are many parts which have some blue-ish background. I need a clean paper. So, try to remove that background and then send again the paper. Please use doc format, not docx.

Thank you very much!

Cordially yours,
Claudiu Gavrioloaie

1st variant of payment:

Beneficiary: Bioflux SRL

City: Cluj-Napoca,

Country: Romania, European Union;

SWIFT CODE of the bank: BTRLRO22

Account no. 213USDCRT00L2861401

IBAN:

USD: RO68BTRL01302202L28614XX (Cluj-Napoca)

EURO: RO19BTRL01304202L28614XX (Cluj-Napoca)

Bank:

BANCA TRANSILVANIA

Important! When bank transfer is used to pay a publication fee, please pay attention to which modality of payment you chose! There are three options: Ben, Our, Us.

Use always "Us" option (meaning that all the bank transfer costs are in your concern/ authors support them and not the publisher). If you forgot to mention that and you let the bank to set "Ben" or "Our" options, we receive about 260 usd instead of 300 usd. Such payments are not valid and you need to pay again for the rest of the sum and one more transfer charge.

2nd variant of payment:

via Paypal. If you can process such a payment we can start the online form. For this variant, please contact dr. Petrescu-Mag (zoobiomag2004@yahoo.com).

Dear Dr. Nofrizal,

We have finished the review, after a huge and difficult work on the paper. We operated many English corrections, scientific names checking and corrections, we edited and corrected the References list, we made a significant editing work for the whole text and so on...

Overall the paper is really good, it is obvious you worked a lot for producing this research.

But there are many important issues to be solved. For that, work only in the attached document, address every single comment and highlight with a bright color all the changes you will do in text. Leave our red corrections as they are so we can easily distinguish between them and your upcoming ones.

Thank you very much!

Truly yours,
Claudiu Gavrioloaie

Dear Dr. Nofrizal,

Thank you for the message. Regarding the other paper, I am not the editor for it. So, I do not know anything about its status. Keep in touch with the editor for that paper only. No other fellow editor is aware about it. It is the same situation as for the paper for which I was editor. No other colleague of mine would have known about its progress and status.

Cordially yours,
Claudiu Gavriiloaie

Dear Claudiu Gavriiloaie
Editor of AACL Bioflux

Thank you very much for sending me the rectification of our paper entitle **A study on by-catch and discard of filter nets (gombang) during west and north season in Bengkalis waters, Indonesia**.

We are going to rectify and revise our manuscript, as well as resend to you as soon as possible.

By the way, I would like to ask you about publication process our second paper, entitle **Swimming speed and heartbeat activity of jack mackerel *Trachurus japonicus*, through ECG monitoring in step-up swimming exercise**. This paper also chose as priority in publication process.

Thank you very much for your kind attentions.

Dear Dr. Nofrizal,

The paper still has important problems. It seem you did not understand some of the comments, because there is no correction in some parts. I am still working on the paper, hoping to send the new review in few hours.

Thank you!

Yours,

Claudiu Gavrioloie

Dear Dr. Nofrizal,

We experience many problems in receiving/sending messages from or to some parts of Indonesia, Malaysia, Philippines. I suppose this was the reason you did not answer my message on March 22, when I have sent you back the paper. There are still many commnets which have not been addressed.

I hope you will receive this message here, because the April issue will be closed soon and I want to have your paper in it. So, pay a lot more attention to the remained comments and address them carefully. Mark red all the changes you will do. Please do not use Track changes. It makes the editing work very difficult. Simply use red color to mark the changes you will do.

Thank you!

Cordially yours,
Claudiu Gavriloaie
